

2023 GMC CANYON

FRONT MUD GUARD INSTALLATION INSTRUCTIONS

Please read instructions thoroughly before installation.

Tools Required

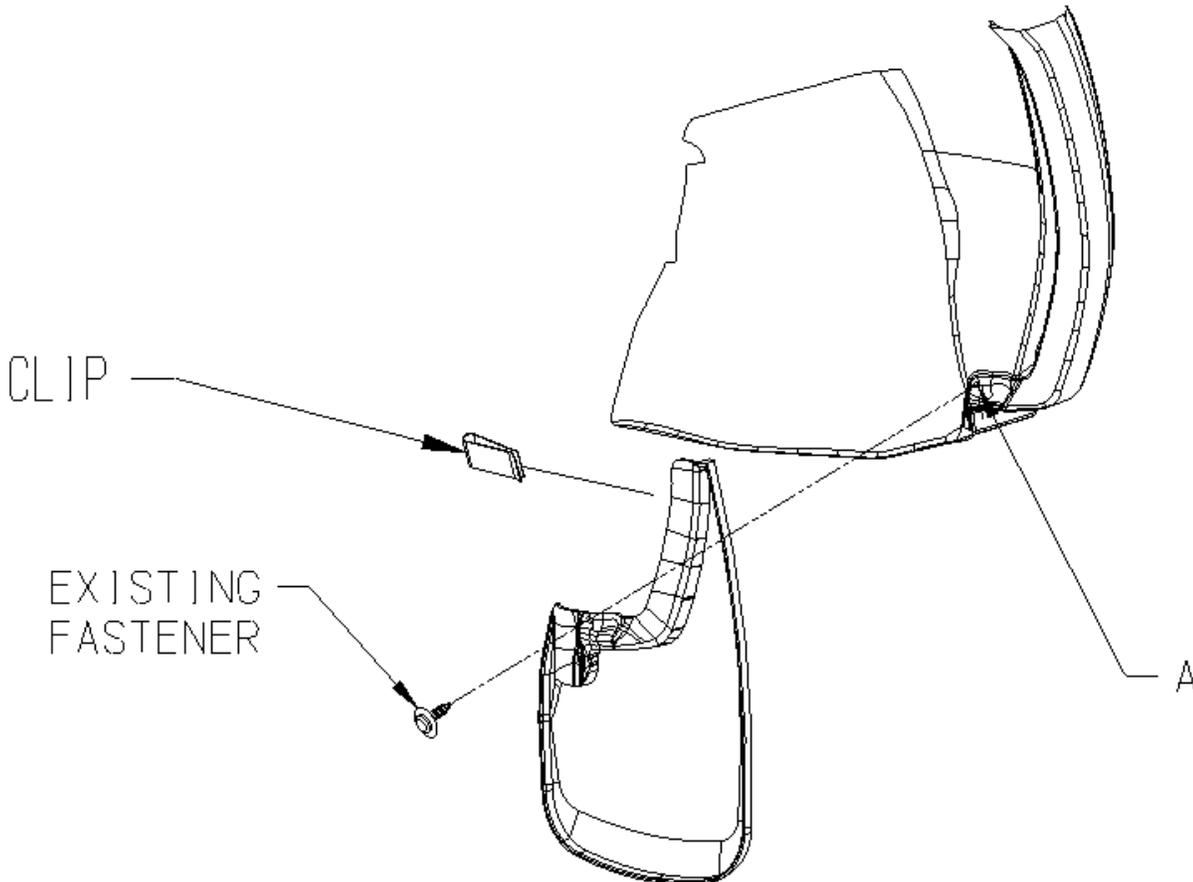

- #15 Torx

Package Contents

- Front Mud Guard
- Spring Clip (X 2)
- Instruction Sheet

Determine which mudguard you have by locating the part number molded in the mounting flange (5832 DS and 5832 PS).

1. Clean and degrease the mud guard location area on the fender before installation.
2. Remove existing fastener from locations A.
3. Attach mud guard to front fender with factory fastener at location A, Check fit and make sure mud guard is parallel to ground before tightening.
4. Install Spring Clip at top of mud guard. The Spring Clip installs over the fender and mud guard, securing the mud guard against the fender.
